# Social Skills Programs 2011/2012

## What makes Kids Matter Inc. different?

*Learning to share our story – one child at a time.*

We know, and you know, how amazing and unique your child is, let us teach them to recognize this as well.

We all want to be heard and valued and with our safe and encouraging Social Skills Group settings, your child will flourish and blossom as a valued member of the group. We will help your child build strong and safe relationships with their peers and the adults around them. Kids Matter will encourage your child to learn how to communicate their own opinions, values, and beliefs in a way that lets others value them for the great kids we know they are. Of course don't forget the most important thing! FUN! Your child will have fun, make friends and learn these important life skills that will take them into the future.

Our Social Skills Groups curriculum, written by a certified teacher, have been designed with this in mind. Each 12 week program builds off the previous session however sessions can be taken individually. With our newly developed curriculum we aim to provide your child with quality programming that your family can use at home as well.

If your child is new to our groups we will contact you for an intake interview to ensure that we all understand your child's specific strengths and program requirements. Kids Matter wants to help your child be the best person they can be in their day to day lives.

If you do not see a group running in your area please email or phone Kids Matter Inc. as we are constantly expanding our groups.
